Professional Summary

Computer Science graduate with a solid foundation in software engineering, mobile application development, and web technologies. Proficient in Flutter, Laravel, and SQL, with experience delivering scalable e-commerce platforms and responsive applications. Recognized for collaboration, problem-solving, and adaptability, and driven to leverage technical expertise and creativity in dynamic development teams.

Education

Modern University for Technology and Information (MTI)	**Sept 2021 – Jul 2025**
Bachelor of Science in Computer Science | GPA: 3.26/4.0	Cairo, Egypt

Relevant Coursework

Web Development (HTML, CSS, JavaScript), Mobile App Development (Flutter), UI/UX Design, Database Fundamentals (SQL), Data Structures & Algorithms, Python Programming

Projects

Syana Home – Graduation Project | *Flutter/Dart, PHP (Laravel), SQL* — **Jul 2025**

- Designed an intuitive UI/UX for an interior design e-commerce platform serving 500+ simulated users, integrating responsive layouts with Flutter and optimizing load times by 20% through creative problem-solving.
- Implemented core features including product catalog, shopping cart, and order management using Laravel backend and SQL database.
- Achieved **A+ grade** for this project.

Airplane Mood | *HTML, CSS, PHP* — **Jun 2024**

- Orchestrated development of a web platform for 200+ book enthusiasts, combining online reading, social interaction, and e-commerce with scalable backend services.
- Integrated PHP with a database to manage user accounts, interactions, and content display.

Makeup and Accessories Website | *HTML, CSS, VS Code* — **Aug 2023**

- Engineered a responsive website to showcase makeup products and accessories through a modern, user-centric interface, achieving 30+ purchases during testing.
- Applied semantic HTML and CSS techniques for structured layout, typography, and responsive design.

Family Bakery | *HTML, CSS* — **Oct 2022**

- Implemented a bakery website with recipe and gallery sections to highlight baked goods.
- Implemented semantic HTML and CSS for responsive layout and enhanced user experience.

Database Management App | *Java, Eclipse* — **Nov 2024**

- Built an Android application to manage cafe orders and products, including order calculations.
- Designed a simple GUI in Java for ease of use and demonstration of database interactions.

Numerical App | *Python, VS Code* — **Oct 2023**

- Developed a Python-based application to compute mathematical equations and dynamically render step-by-step solutions.

Technical Skills

Languages & Frameworks: Dart (Flutter), PHP (Laravel), SQL/MySQL, JavaScript, Python, HTML, CSS
Developer Tools: Git, GitHub, Visual Studio Code, Android Studio, Eclipse, phpMyAdmin, MySQL Workbench, Postman, Figma

Leadership & Extracurricular

President – MTI University Project Competition **Jun 2024**

- Spearheaded a team to win Best Project in the Internet Technology course among 20+ entries with 'Airplane Mood', an innovative platform featuring online reading, interactive community features, and integrated e-commerce, showcasing effective communication and teamwork.
